

FRIDA

Frida LAB 1

Objective

The application displays a button. When the button is clicked, it checks a condition before revealing the flag.

Our goal is to **hook the method responsible for the check** and force it to return the correct value.

Install the APK

Install the application on your rooted Android device or emulator.

```
adb install FridaLab.apk
```

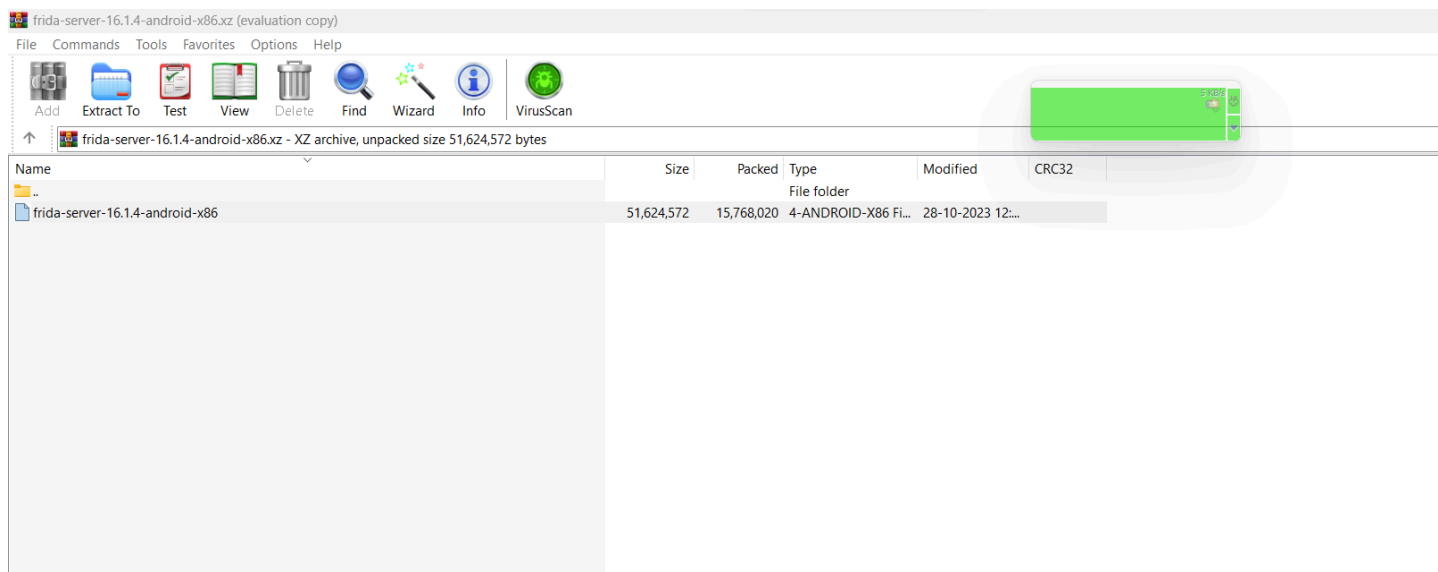

Launch the Application

Decompile the APK

Open the APK in JADX.

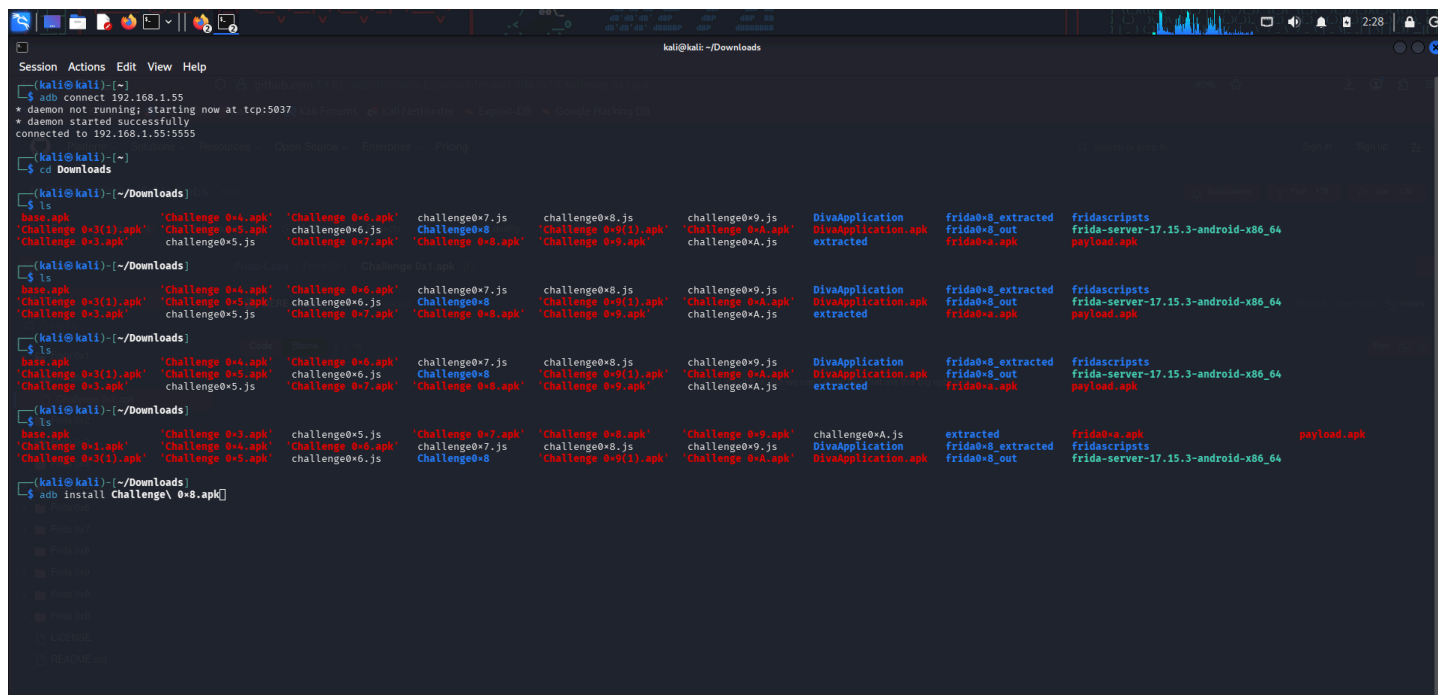

```
jadx-gui FridaLab.apk
```

Browse the source code.

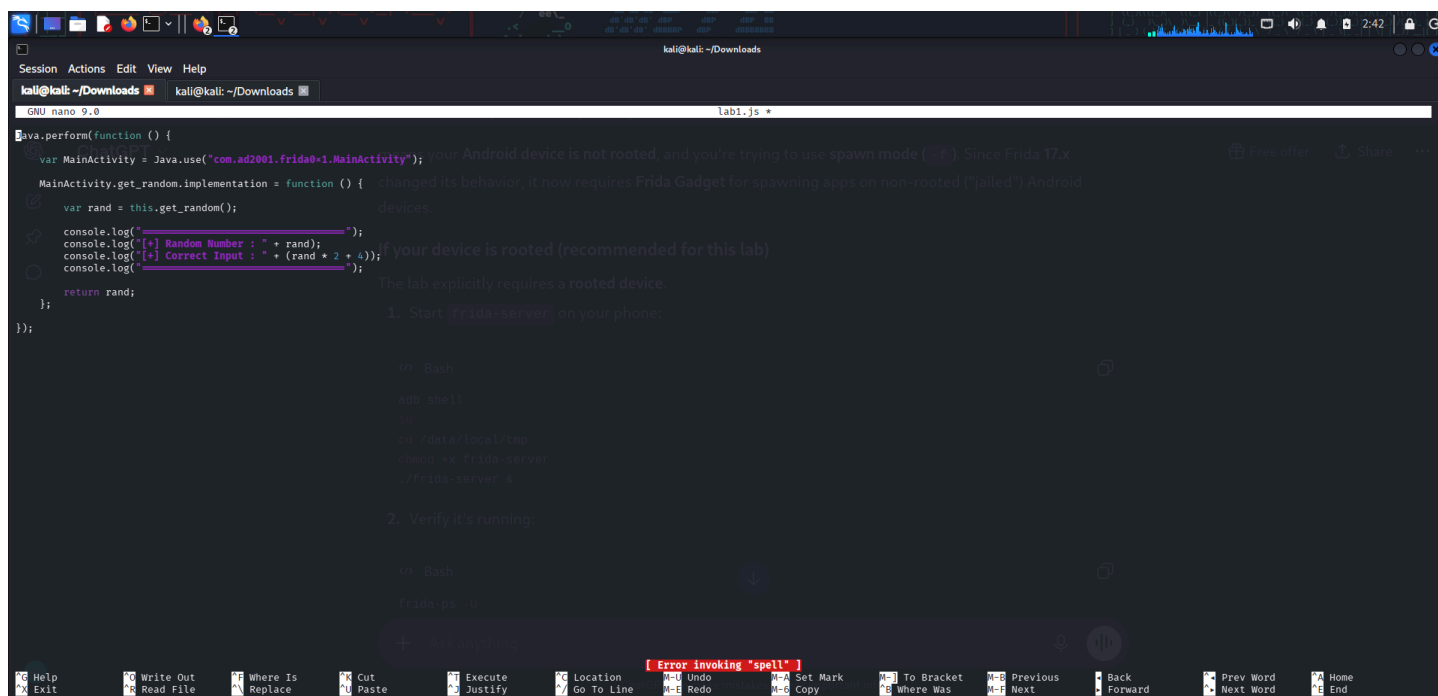

push the server:

adb push frida-server-16.1.4-android-x86 /data/local/tmp

Write the Frida Script

Create a file.

D:\Downloads> adb shell

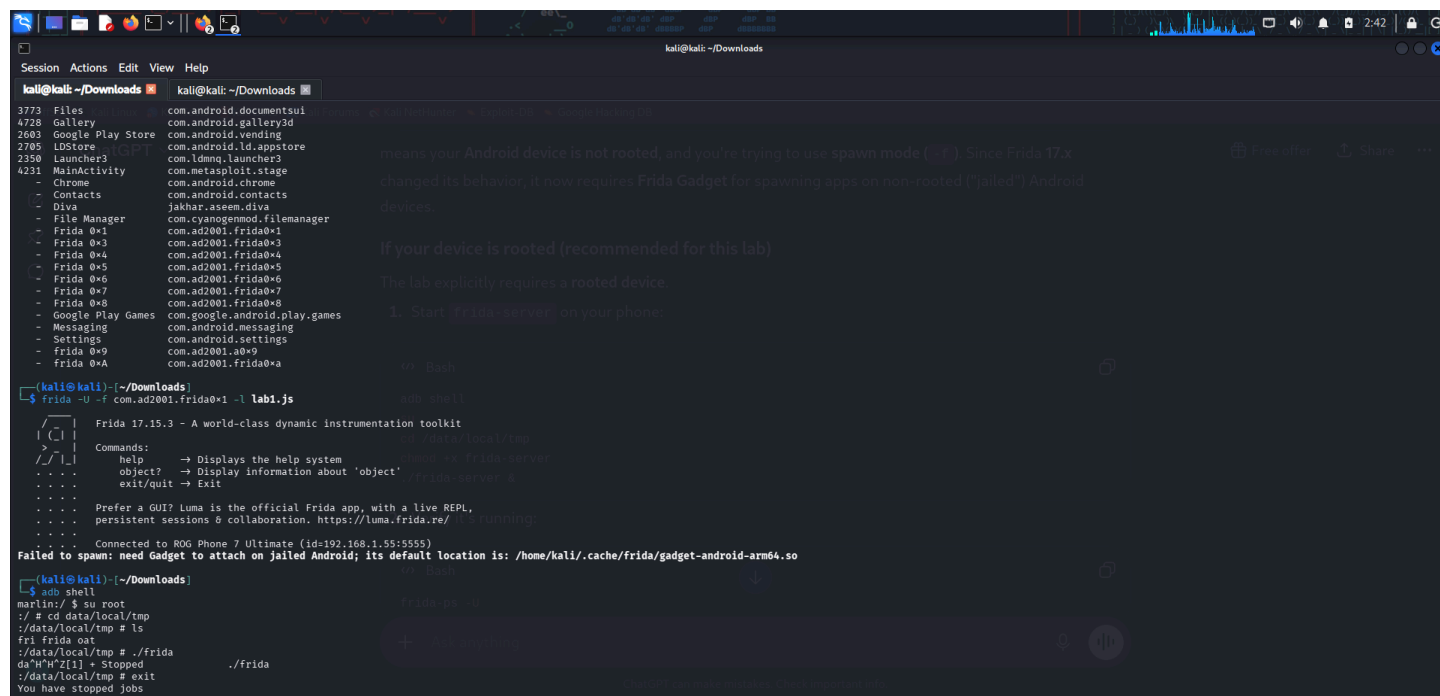

generic_x86:/ # cd /data/local

local.prop local/

generic_x86:/ # cd /data/local/tmp/

```
generic_x86:/data/local/tmp # ls
```

```
generic_x86:./frida
```

```
