

FRIDA

Frida LAB 3

Objective

In Challenge 0x3, the application hides the flag inside an EditText. Unlike the previous challenges, there is no input field on the screen for the user to enter the required value.

Install the APK

Install the application on your rooted Android device or emulator.

adb install FridaLab.apk

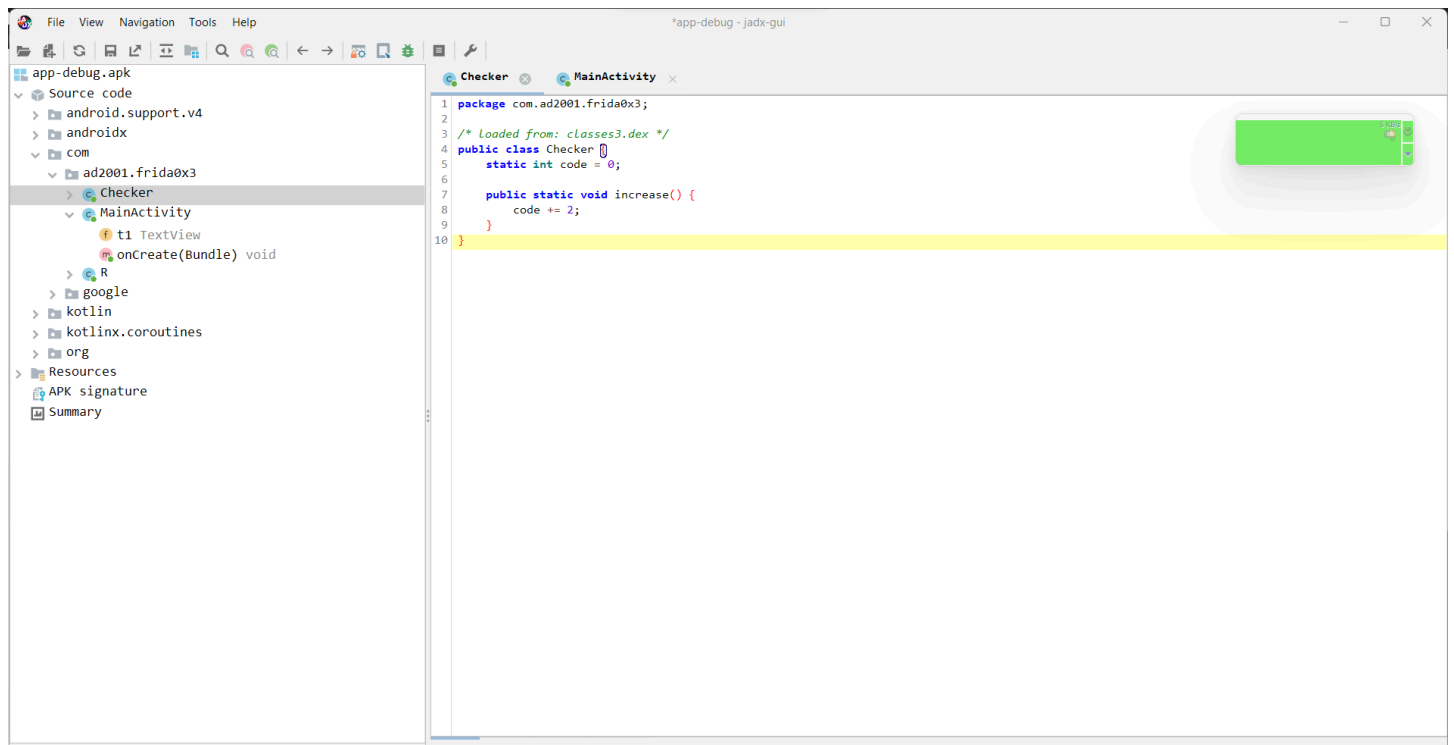

Launch the Application

Decompile the APK

Open the APK in JADX.

jadx-gui FridaLab.apk

Browse the source code.

(kali@kali)~/Downloads$ adb install Challenge\ 0+8.apk
```

Write the Frida Script

Create a file.

```
kali@kali: ~/Downloads
GNU nano 9.0 lab3.js
java.perform(function () {
  console.log("[*] Frida script started");

  try {
    var Checker = Java.use("com.ad2001.frida0+3.Checker");
    // Increase code from 0 to 512
    for (var i = 0; i < 256; i++) {
      Checker.increase();
    }
    console.log("[+] Checker.increase() called 256 times");
    console.log("[+] Now press the button in the app.");
  } catch (err) {
    console.log("[-] Error: " + err);
  }
});
```

D:\Downloads> adb shell

generic_x86:/ # cd /data/local

local.prop local/

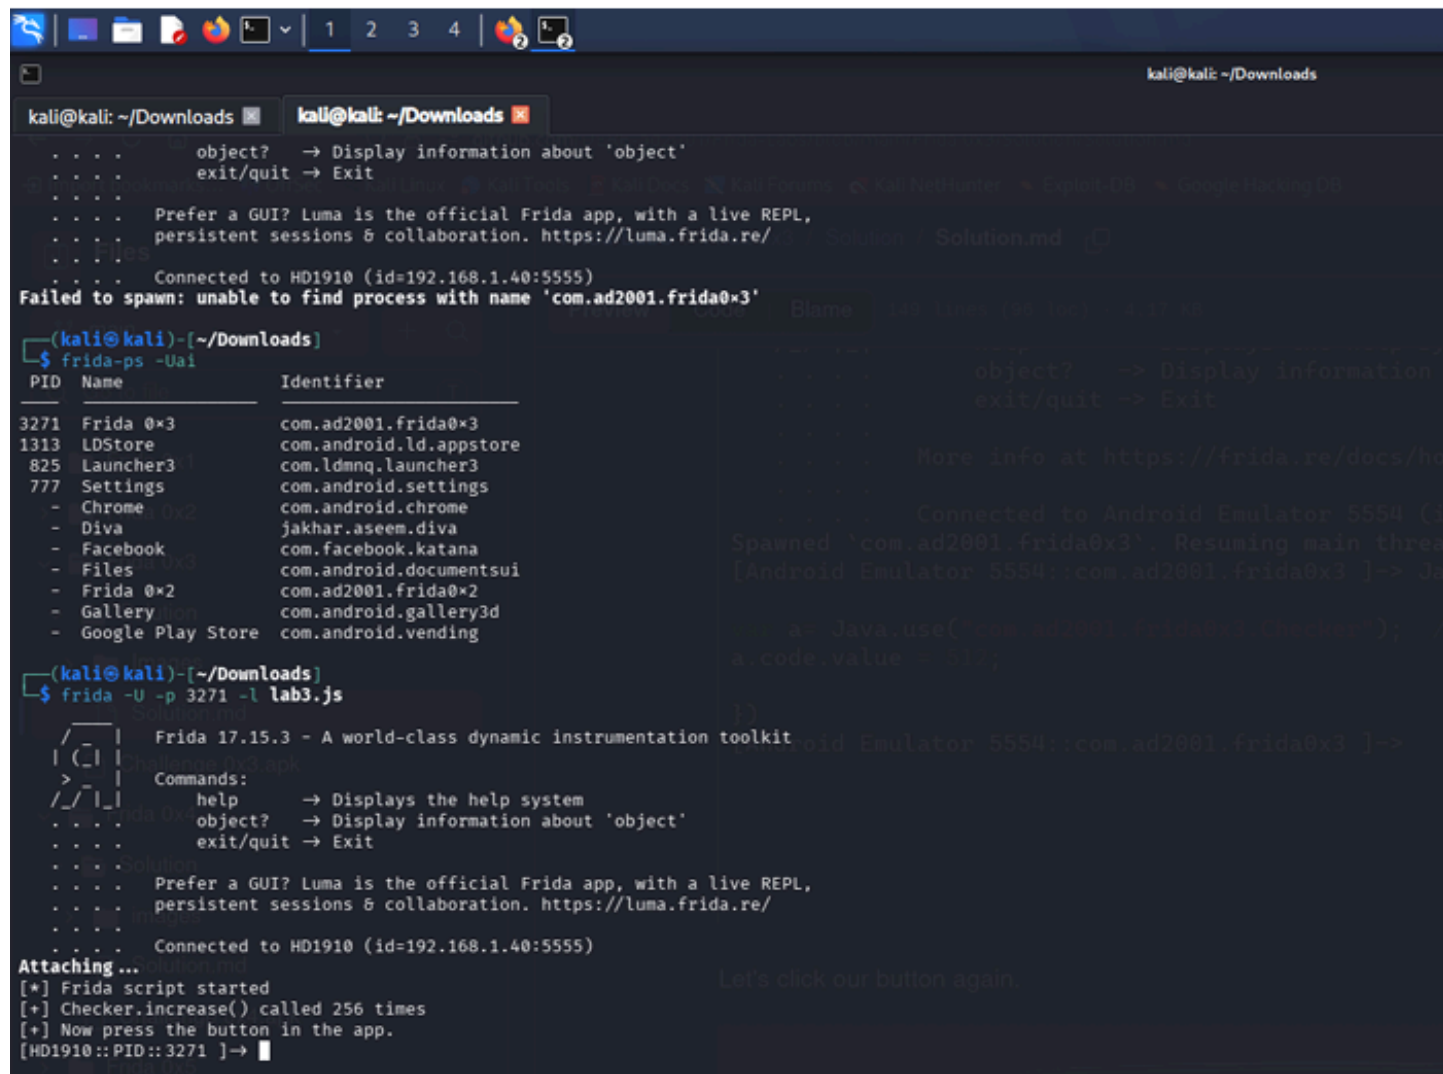

generic_x86:/ # cd /data/local/tmp/

generic_x86:/data/local/tmp # ls

Run Frida

Start the application with Frida.

```
frida -U -f uk.rossmarks.fridalab -l challenge3.js
```

```
